Chief secretary !

Oh, there you are.

We don't have much time.. Let's go.

What is going on, sir ?

N.Korea is mobilizing... I find it hard to believe.

We accepted all of their requests for the summit...

Ah...

General !

General !

Can you tell us what exactly is going on ?

N.Korean armies are approaching DMZ...

Is this a provocation?

No, it is not.

Right now, there is no sign that they will attack us from DMZ zone as well as from lake near the border.

Chief director of strategic planning

Actually, Pyongyang was attacked.

This image was taken an hour ago by a satellite hovering korean peninsula.

It was analyzed and was revealed that it was a military conflict.

Soon after this conflict, the 3rd and 4th regiments moved to Pyongyang.

At this point, we can conclude that there is currently an internal military conflict in North Korea.

General ...

An internal conflict ... and near Pyongyang ...

It's all too familiar, isn't it ?

Using darkness as a cover, a military force attempts to conquer the capital city ....

Year 1961, May 16th ...

1979, December 12nd ...

A coup ?!

We assumed that the conflict near Pyongyang was a small one.

Soon after the conflict, there was another.

815 mechanized infantry unit that was stationed Southern yellow sea was moving toward Pyongyang.

820 tank unit that was stationed Northern yellow sea intercepted them and there was a big battle.

Right now, 806 mechanized infantry of 2nd regiment is currently moving toward Pyongyang. And 620 artillery unit is heading toward DMZ.

Right now we believe that N. Korea is citing reinforcements to Pyongyang. And the coup forces that failed to take Pyongyang are gathering on South.

So, right now North Korea is divided into two forces. One's at Pyongyang and the other is at DMZ ?

Right now, nothing is 100% certain.

However, 815 and 820 units are N. Korea's elite forces

And therefore at this point, there was a coup. That's what we think.

A coup ...

Coup, huh ...

What a timing. The day we decided on Korea inter-summit ...

The divided N.Korea forces are gathering at Pyongyang and DMZ.

The situation is chaotic and we don't know what they might do in chaos.

USFK declared DFCON 3 at 21:30. And USS George Washington and others left Yokosuka and are heading here.

Depending on developments of the situation. USS Carl Vinson from the pacific might be deployed as well.

USA is making swifts movements in the case of the worst.

Is the president here yet ?

He will be here soon Did you contact NSC membos ?

A direct call to Ge-Soong please!

Hello ? Ge-Soong? This is executive officer Park.

Yes... , yes, thank you.

Enough of this! right now. You must call back all S.Korean workers from there right now !

Find a way ! Bribe them if you must ! Lie if you must !

I will contact the army and have them picked up.

And one more to ask of you.

Among the female employees, there is a woman named Choe Minah.

Find her and let me know

Yes... , please you must do this.

!

!

Minah ?!

Mr. Park? I am not sure whether you remember me ...

We've met before at Ge-Soong industry. I am James Baek from Jomi trade.

!

James Baek?

I haven't told you but you do know what my real job is, do you not ?

And I am sad that I am unable to reach you right now ... This is a crucial moment, you see.

Listen well, Mr. Park And do tell your uncle about it.

!

Pi !

NIS chief officer Choe Dong Choel ?! Heilo, this is Park Je-Ik !
Yes, from the Blue house !
I need you to trace a phone call! He called me just now !
You need to hurry ! This is regarding national security !
Hey, Park Je-Ik
You should have joined me at the ministry of National Defense

If you did ...
?
Is something wrong, ?
워어잉
Hello ?!
Did you trace it ?!

What's wrong? Are you ignoring me because I am talking to you casually ?
But you and I go way back ...

General ...
?

The coup theory ...
It's correct, I think.

투투투투 투투

!
Mr. President !
You came all the way up here? ... Kiddo, I am so sorry. I didn't realize sadness and soju meant so much to you.
I guess everyone's psyched up, eh ?

Anyway, don't feel so bad.
I didn't got to eat any sashimi and soju.

Mr. President...

N.Korean leader Kim Jong-Il...
is dead.

Is it true that Kim Jong-il is dead ?

?

Those faces ... You don't know ?

Ministers of National defense and state affairs ! Answer me.

No, sir ... We have no alerting information regarding Kim Jong-il...

Same here.

What's going on? Is it an accurate info?

Where is it from?

Well ...

The chief of CIA N. Korea division called me directly.

CIA...

N.Korea ... division ???

If he really is dead, USA would let us know by now.

Minister of nation defense, you have a call.

Sir ...

Mr... Mr. President! I have info from America.

They say Kim Jong-il died about three hours ago !

Mr. President.

USFK is requesting our approval of DEFCON 2.

DEFCON 2 ?!

DEFCON 2 requires regiments to be fully ready for a war. Live ammunition are delivered to units. All personnel including reserve must report in.

If we approve DEFCON 2, we must mobilize even reserve troops.

We haven't gone to DEFCON 2 for 60 years.

Indeed, it hasn't happened since 6.25... I don't think anyone is ready for this.

We must be cautious

I don't think we have a choice right now. We don't have time to think, either.

Tell them we approve DEFCON 2.

Call Chinese and Russian embassies and inquire them about Kim Jong-il.

Mr. President

USA Secretary of State is requesting you.

Hello, Mr. President.

According to a reliable source, N.Korea leader Kim Jong-il died about 3 hours ago.

And his death is known to only high rank officers in N. Korea

And using this opportunity,

Hardliners and the Moderates are very likely to enter military conflict to control their nation.

Good news is that their nuclear missiles in Ham Kyeong appears to be under control of the Moderates.

Bad news is that they are in deadlock.

And whoever emerges victorious will control N. Korea.

From what we know, a key person in this conflict is Oh Kwang-Ryeol, the vice minister of N.Korea nation defense. He leads the Hardliners.

His aim is to bring N.Korea on brink of an internal war and then initiate a coup to seize powers.

United States of America would like to put an end to 20 years of Nuclear issues with N. Korea by executing modified version of OPLAN 5026 and 5029.

Wiki OPLAN 5029 and you will now what these are.

We will attempt to get rid of Oh Kwang-Ryeol and other key figures in the Hardliners.

OPLAN 5026 ... ?!

They are going to bombard N. Korea ?!

Mr. President, OPLAN 5026 is to avoid direct confrontation but nevertheless it is still a preemptive strike !

It will depend on how N. Korea will react but there is a high chance of a full scale war !

Mr. President, we need your agreement.

I would like to ask one question.

If you successfully remove the Hardliners from N. Korea, there will be very positive movements to improve the relationship between North and South Korea

But do know that by proposing the OPLANs, you risk the lives of innocent people on Korea peninsula.

The reason America has held back from executing the OPLANs has been because of the possibility of a full scale war.

We understand perfectly that the situation in N.Korea is very unstable. But are you absolutely sure that there won't be a full scale war?

.....

Mr. President ...

We weren't the one who made the decision.

The moderates in N. Korea has requested us to proceed with the OPLANs.

They've provided us intels on locations of key figures of the Hardliners and have promised that

They are willing to offer full cooperation if we remove the Hardliners.

N. Korea themselves requested bombardments?!

!

Is that intel trustworthy?

United Status of America guarantees.

Now..., can I have your words..., Mr. President ?

Yes.

As the leader of ROK armed forces, I agree with your your plans.

I shall be held responsible for whatever happens to the South Korean government and its people.

I wish you good luck.

... Thank you, Mr. President.

The plans will be supervised by Commander Durant of USFK and Commander Crichton of Pacific command

I thank you again for your cooperation.

Mr. President...

I have news from Beijing ...

They've closed off the oil pipine under Amnok river to N. Korea.

Even China is being cautious. I believe all the signs point out that there is a very dangerous situation going on in North Korea.

Mr. President, we have a call from Speaker Hap of USFK.

Mr. President ! I am with Command Durant right now !

At the moment, the commander is making his report to USA command.

I will explain the mission details.

About an hour ago on 23:10

N. Korea prime minister Jung Cheol-Uoo has requested USA to get rid of Oh Kwang-Ryeol and the Hardliners.

The Moderates are deeply concerned that the Hardliners will destory N. Korea and even worse put Koream peninsula under great risk.

They've requested US to attack the Hardliners on their behalf and has promised complete removal of nuclear weapons.

And now I will report you the details of OPLAN 5029-5026.

It's been reported that Oh Kwang-Ryeol the vice minister of N. Korea nation defense and another key member Kim Kyeong-Cheol

Are gathered in a house south of Pyongyang to discuss a coup.

The Moderates have contacted CIA members in N. Korea to inform US of their location and have requested to get rid of them.

Therefore, US has made slight modifications to OPLAN 5029 - 5026.

20 minutes ago, 5 F-22 has taken off from Kadena Japan.

The plane will enter N. Korea via a safe aero space provided by the Moderates.

It will then commence bombardment of its target location.

Soon, the F-22 will enter Korea.

Considering the fact that the current targets could be humans inside cars,

The F-22 will use CBU-87.

CBU-87 is a cluster bomb.

It is capable of decimating any small vehicles and whatever are inside within the size of a football (soccer) field.

It has a nickname, "Steel Rain" ...

The bomb will shower them with rain of steel !
